Chandan Pandey

Full Stack Web Developer

PROFESSIONAL SUMMARY

Highly skilled and motivated full-stack web developer with expertise in MERN stack. Collaborates effectively with product managers, designers, and developers to translate project requirements into scalable web applications. Proficient in Node.js, Express.js, React.js for frontend development, and MongoDB for database modeling. Strong problem-solving and communication skills contribute to successful project implementations. Stay up-to-date with cutting-edge web development trends and technologies.

PROJECTS

1. coding-guru | |

JavaScript | CSS3 | HTML5 | Git | Responsive Web Design

- Developed a website design replicating the functionality of the Global Indian International School's admission process
- Implemented a landing page with a navbar providing links to various sections including teachers' page, admission process page, and authentication (login/signup)
- Designed frontend user interface with features such as a principal's message and footer
- Created additional pages accessible from the navbar, including the About page, teachers' page, admission process page, and extra resources about the school
- Incorporated dynamic time and date updates based on user selection
- Developed an admin page utilizing CRUD operations

2. Sugar Cosmetics | |

HTML5 | Git | bootstrap | figma | CSS3 | Sass

- Designed and developed the navbar and toast components for the Sugar Cosmetics website
- Implemented mega menu and dropdown menu functionality for easy navigation
- Developed hero image carousel and card carousel for showcasing products
- Created the footer section to improve user experience
- Collaborated with a team of 5 members to manage the project and optimize the code
- Ensured project responsiveness and code quality
