- Cloud Application Developer
- Career Edge

Chandan Pandey

Full Stack Web Developer

PROFESSIONAL SUMMARY

Highly skilled and motivated full-stack web developer proficient in the MERN stack. Expert in Node.js, Express.js, React.js, MongoDB, and RESTful API design. Strong problem-solving, communication, and collaboration skills, effectively translating project requirements into scalable web applications. Adept at working with cross-functional teams to deliver successful projects with attention to detail.

PROJECTS

1. Byte-Bhaav | |

JavaScript | React | Redux | Git | Express.js | MongoDB

- Developed a recipe web app with search, filter, and pagination features. Implemented membership-based recipe access. Enabled user recipe posting and secure login/signup. Led a team of three, overseeing development, code reviews, and providing mentorship.

2. ClothY | |

JavaScript | React | Redux | Git | Express.js | MongoDB

- Developed an e-commerce platform for clothes. Implemented cart functionality, user interface enhancements, and payment integration. Added features like add to cart, add to wishlist, login/signup, payment integration, and pagination. Managed UI/UX, validations, and the repository on GitHub. Collaborated with a team of 4 members with high contributions.

3. coding-guru | |

JavaScript | CSS3 | HTML5 | Git | JSON Server

- Developed a user-friendly school website to improve communication and information sharing. Implemented a news and resources section with event summaries and video links. Ensured responsive design and highlighted laboratory facilities for prospective students. Included login/signup functionality. Led a team of 5 members in this project. make it little bit sort it's taking some more space
